Closma®

ABOUT US

Closma stands as a leading brand in architectural and interior hardware solutions, with a legacy rooted in innovation, craftsmanship, and trust. Established in 1989, the brand has continuously evolved to deliver modern, functional, and aesthetically superior products for residential and commercial spaces across India.

OUR JOURNEY

1989 – Foundation

Closma began its journey as **Kelwyn Doors Cares India** under the leadership of **Mr. Paramjeet Singh Sayal**, focusing on premium architectural hardware solutions.

2002 – Rebranding & Expansion

Under **Mr. Sanjam Sayal**, the company rebranded as Closma and entered the glass hardware segment, partnering with major developers and contributing to landmark projects.

2007 – Diversification into Railings

Closma expanded into stainless steel and aluminum railing systems, enhancing its portfolio and participating in prestigious infrastructure developments.

2021 – Slim Internal Partition Systems

The company introduced modern slim profiles, shower cubicles, and sliding systems, strengthening its presence in contemporary interior solutions.

2024 – Complete Interior Solutions

Closma added wardrobes, kitchen profiles, metal mesh, and fabrics, offering customers a one-stop destination for comprehensive interior hardware.

2025 – Establishment of Closma India & Experience Centre

On 2025, a new Chapter began with the introduction of Closma India.

A state-of-the-art Experience Center was established, showcasing a complete A to Z range of interior and architectural solution. This center enabled customers, architect, and designers to explore products in their true application. With this forward-thinking vision, **Mr. Sanjam Sayal** expanded the brand's journey from **Closma to Closma India**, marking a significant milestone in its growth and future aspirations.

OUR MISSION

To deliver advanced, durable, and aesthetically refined architectural and interior hardware solutions that elevate everyday living.

OUR VISION

To become India's most trusted and innovative brand for complete architectural and interior hardware solutions, driven by design excellence and technological advancement.

OUR CORE VALUES

Quality First: Every product undergoes strict testing for durability, finish, and functionality.
Innovation: Continuous R&D; to introduce modern designs aligned with global trends.
Customer Trust: Building long-term relationships through consistent service and reliability.
Craftsmanship: Precision-engineered products crafted with attention to detail.
Integrity: Ethical practices and transparent processes in every business operation.

OUR STRATEGY

- To expand product lines that complement modern architectural requirements.
- To invest in technology-driven manufacturing for precision and durability.
- To collaborate with architects, designers, and developers for customized solutions.
- To ensure seamless, timely delivery and responsive customer service.
- To maintain a strong distribution network across India for better accessibility.

OUR PRODUCT PORTFOLIO

- Slim Sliding Systems
- Glass Hardware
- Stainless Steel & Aluminum Railings
- Wardrobe & Accessories
- Fabrics & Metal Mesh
- Interior Sliding & Shower Systems

COMMITMENT TO EXCELLENCE

Closma continues to move forward with a promise of creating products that harmonise elegance, functionality, and longevity. With a blend of technology, design expertise, and market understanding, we aim to lead the future of interior and Architectural hardware in India.

PORTA PIVOT HARDWARE CONCEALLING
INSTRUCTIONS CHART IN PROFILE **CASP-EPD-4008**
(Milling Procedure for **Bottom** Profile)

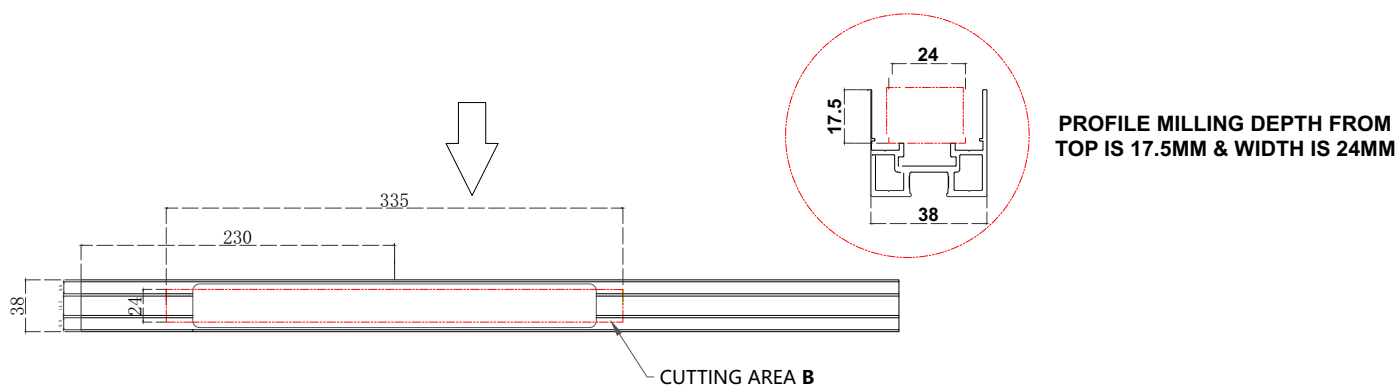

Step 1: Marking & Cutting the First Slot (Cutting Area A)

- 1 First, locate the center point 230 mm from one end of the profile. Next, cut a slot 24 mm deep and 34 mm wide with a total length of 296 mm, ensuring it is perfectly centered along that 230 mm mark.

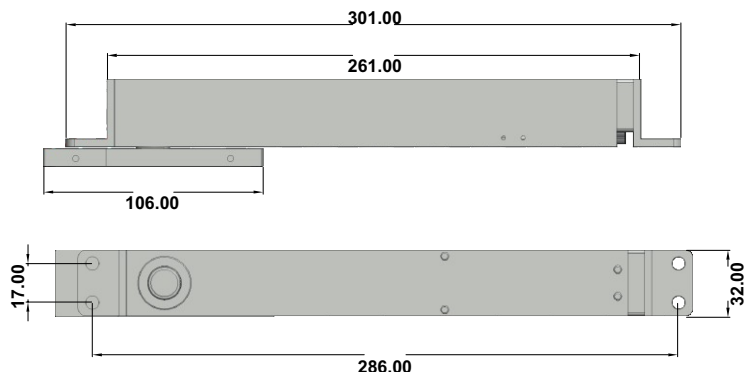

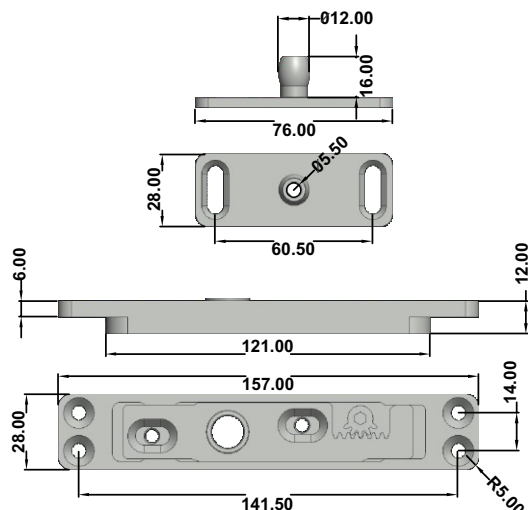

Step 2: Marking & Cutting the Second Slot (Cutting Area B)

- 2 At the end of the profile, within the slot you just created, mark and cut a smaller, shallower slot —17.5 mm deep, 24 mm wide and 335 mm long, make sure this cut shares the same center point (230 mm) as the first slot. This secondary slot is designed to accommodate a specific part of the hardware mechanism, ensuring a precise fit.

PRODUCT SIZE DETAILS

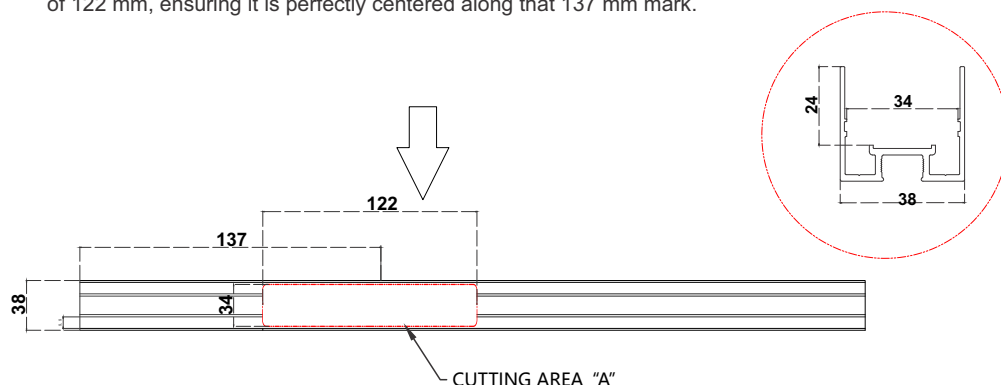

PORTA PIVOT HARDWARE CONCEALLING

INSTRUCTIONS CHART IN PROFILE **CASP-EPD-4008**

(Milling Procedure for Top Profile)

Step 1: Marking & Cutting the First Slot (Cutting Area A)

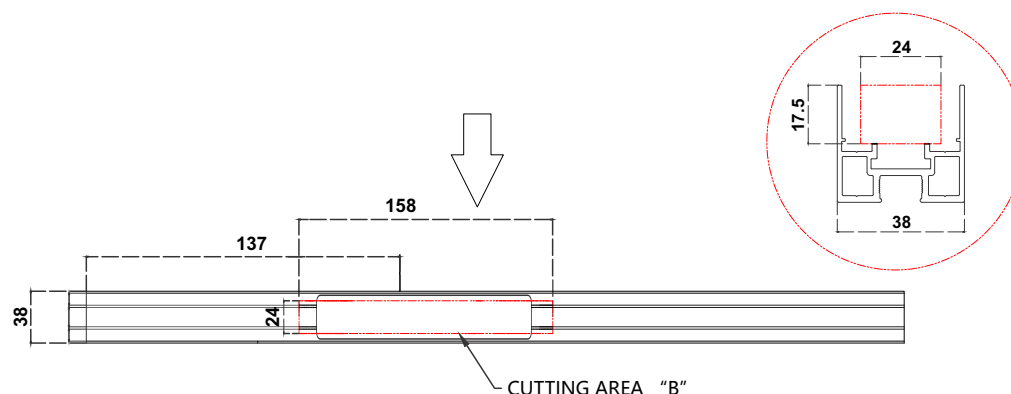

- 1 First, locate the center point 137 mm from one end of the profile. Next, cut a slot 24 mm deep and 34 mm wide with a total length of 122 mm, ensuring it is perfectly centered along that 137 mm mark.

PROFILE MILLING DEPTH FROM TOP IS 24MM & WIDTH IS 34MM

Step 2: Marking & Cutting the Second Slot (Cutting Area B)

- 2 At the end of the profile, within the slot you just created, mark and cut a smaller, shallower slot —17.5 mm deep, 24 mm wide and 335 mm long, make sure this cut shares the same center point (230 mm) as the first slot. This secondary slot is designed to accommodate a specific part of the hardware mechanism, ensuring a precise fit.

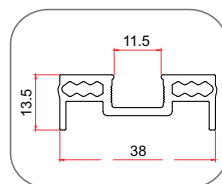

PROFILE MILLING DEPTH FROM TOP IS 17.5MM & WIDTH IS 24MM
