ITALIAN WARDROBE CONCEPT

2026

LUXURY LIVING

ABOUT US

In the world where everything new-age is welcome, Astronea takes it a step further in the world of wardrobes and doors with its unique modular systems.

The designs that stand out, the functionality that emanate only brilliance, the quality that sets a benchmark, and the innovation that is most sought-after. That's what perfectly defines Astronea and its wide range of solutions.

The cornerstone values of Astronea's philosophy are, modularity, flexibility, cross-functionality, wide applicability, and the clear expression of an artisan tradition that lives on in a technologically advanced company open to future challenges.

The company comprises a team of visionary designers and engineers in collaboration with leading architects and interior designers who always their extra in the extraordinary solutions.

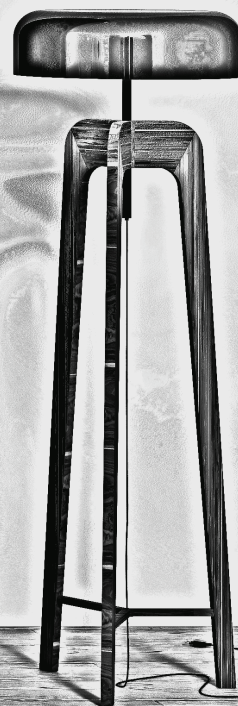

With constant innovation, Astronea launches a new-age luxury collection giving you the taste of Italy. Derived from Italian concepts, Astronea's new range is an amalgamation of technology and aesthetics. Whether you want to open the door to grand living, Or fill your wardrobe with luxe vibes, or light up your walls shelves using beauty with brains, For all of it, Astronea's new Italian collection is for you!

Its wardrobe and door solutions are big on ergonomics and functions characterized by design that stands out in the modern world.

Astronea is a company capable of interpreting change, understanding the market trends, and architecting solutions that have a unique design. The aim is to achieve quality and high standards for living room, bedroom, corporate and other diverse spaces.

- Assembly detail 2: Shows the door panel being fastened to the frame with screws and glue.
- Assembly detail 3: Shows the door panel being fastened to the frame with screws and glue.
- Assembly detail 4: Shows the door panel being fastened to the frame with screws and glue.

KSLD 23 - INLINE (CUTABLE SIZE)

Door panel not cover side panel

This technical drawing shows a top-down view of a KSLD 23 inline cabinet. The dimensions are labeled as follows:
 A: Inner width of cabinet
 B: Gap between two doors ($\geq 4\text{mm}$)
 C: Door panel cover side panel width ($\leq 25\text{mm}$)
 D: Door width = $(A + 2C - B) / 2$
 The diagram illustrates how the door panels are positioned relative to the side panels, ensuring they do not overlap.

Door panel cover side panel

This technical drawing shows a top-down view of a KSLD 23 inline cabinet where the door panels cover the side panels. The dimensions are labeled as follows:
 A: Inner width of cabinet
 B: Gap between two doors ($\geq 4\text{mm}$)
 C: Door panel cover side panel width ($\leq 25\text{mm}$)
 D: Door width = $(A + 2C - B) / 2$
 The diagram shows the door panels extending further outwards to cover the side panels.

A=Inner width of cabinet
 B=Gap between two doors($\geq 4\text{mm}$)
 C=Door panel cover side panel width($\leq 25\text{mm}$)
 D=Door width=(A+2C-B)/2

This technical drawing shows a front view of the KSLD 23 inline cabinet with its internal components visible. The dimensions are labeled as follows:
 Min25: Minimum height of the upper part.
 Max130: Maximum height of the upper part.
 Min150: Minimum height of the lower part.
 Min60: Minimum height of the base.
 14.5: Dimension from the bottom edge to the start of the base.
 11: Distance between the two main vertical sections.
 3: Thickness of the middle section.
 Cabinet height: Indicated by a dimension line on the right side.

This technical drawing shows a side view of the KSLD 23 inline cabinet. The dimensions are labeled as follows:
 Min25: Minimum height of the upper part.
 Max150: Maximum height of the upper part.
 Min60: Minimum height of the base.

This technical drawing shows a side view of the KSLD 23 inline cabinet. It includes a warning note: "Ensure the strength of the regulator. After installed fittings and door, the top panel shouldn't bend." This indicates that the top panel must be supported by strong regulators to prevent bending after installation.

SIZE	1650	2050	2450
Bracket hole Distance L =	195	270	370

This technical drawing shows a detailed view of the left door of the KSLD 23 inline cabinet. The dimensions are labeled as follows:
 Left door: Label for the door type.
 D: Total door width.
 D/2: Half of the total door width.
 L: Bracket hole distance.
 R5: Radius of the corner.
 65: Distance from the outer edge to the bracket hole.
 30: Distance from the inner edge to the bracket hole.
 15: Distance from the bottom edge to the bracket hole.
 11: Distance between the two main vertical sections.
 3: Thickness of the middle section.
 14.5: Dimension from the bottom edge to the start of the base.
 Labels for components: Upper runner roller regulator, Lower runner roller regulator, Upper runner roller regulator, Lower runner roller regulator.

This technical drawing shows a side view of the KSLD 23 inline cabinet. The dimensions are labeled as follows:
 12±0.5: Dimension from the outer edge to the bracket hole.
 12±0.5: Dimension from the inner edge to the bracket hole.
 12±0.5: Dimension from the bottom edge to the bracket hole.

This technical drawing shows a detailed view of the right door of the KSLD 23 inline cabinet. The dimensions are labeled as follows:
 Right door: Label for the door type.
 D: Total door width.
 D/2: Half of the total door width.
 L: Bracket hole distance.
 R5: Radius of the corner.
 65: Distance from the outer edge to the bracket hole.
 30: Distance from the inner edge to the bracket hole.
 15: Distance from the bottom edge to the bracket hole.
 11: Distance between the two main vertical sections.
 3: Thickness of the middle section.
 14.5: Dimension from the bottom edge to the start of the base.
 Labels for components: Upper runner roller regulator, Lower runner roller regulator, Upper runner roller regulator, Lower runner roller regulator.
